

Café One's Community Kitchen

Café One's Community Kitchen is about people helping people. We are surrounded by working poor families who are struggling to feed their children. Let's join hands and make a difference this January 9th, 2010. You can buy a child a nourishing hot meal and share it with her at our café, for only RM10. Good nutrition and proper food choices will allow them to grow and develop into healthy productive adults. Our goal is community kitchen open daily for children to have lunch at our cafe after school.

Café One is a community café founded in Sentul, where we have a professional life coach to train and coach underserved individuals from the neighborhood to run a café successfully. We also aim to be a caring activity centre for the community.

Yes! I want to share a meal with a child or two!
